Be-YOU-tiful Boutique
by Michele

PROJECT MEETING PACKET

Your website — where we are and what's next

Prepared for Michele · Monday, September 28, 2026

Amber Mingione · LaunchWell Brands
(239) 770-4924 · buildwith@launchwellbrands.com

Keep this copy — write on it, circle things, bring it back.

Your site is built and in review

LAUNCH TARGET	YOUR STORE	PROJECT
Oct 15, 2026	shopbeyoutifulboutique.com	$1,000 flat
17 days from today	Built, private until launch	$500 deposit received · $500 at go-live

What's finished

DONE **Homepage.** Your holographic peacock logo, with a full gallery of your Looks beneath it — a clean "Shop Styles" grid instead of a slideshow, so nothing autoplays or spins while you're deciding what to click.

DONE **Shop the Look pages.** Photo of the outfit on one side, every piece priced and shoppable on the other, plus "Goes with it" suggestions. Four sample looks are live in the draft.

DONE **Pages.** About, Visit Us, Contact, Questions (FAQ), Size Guide and Shop the Look are in place. About and Visit Us still have starter text for you to correct.

DONE **Shop structure.** Nine collections that fill themselves (New Arrivals, Sale, Clearance and more), filters, size and color pickers, cart and checkout.

DONE **Behind-the-scenes connection to your store.** The private tool that lets your products, your Epos register, and your rewards program all talk to Shopify is built and installed — the plumbing for Steps 3 and 4 below is ready to use.

TESTING **Sample products.** 18 pretend products with pretend prices are loaded only so we can test the shop. They're removed before launch and replaced by your real inventory.

TODAY **Look and feel.** Soft neutral grays and white, with a deep teal ("Peacock") accent used for one bold stripe throughout the site — a color chosen to go with your peacock branding, not sampled from your logo file. Your peacock logo itself stays black, white, or holographic. Take a look together today and tell me if this is the direction to keep.

Store hours we're showing (please confirm): Mon 11–4 · Tue–Fri 10–5 · Sat 10–4 · Sun 10–5 · In-store pickup offered
264-A W Marion Ave, Punta Gorda, FL 33950 · (941) 369-1628

Five things between us and launch

1	**Write your About page** You write it in your own words — a few prompts on page 5 if they help. Send it over and I place it on the site.	Michele writes Amber places
2	**Site review → edits** Look through every page on your phone and on a computer. Circle anything that's off. I make the changes. Two rounds of revisions are included.	Michele reviews Amber edits
3	**Sync products with Epos and Faire** Products, prices, sizes and stock stay matched between your register, your website and your Faire wholesale account, so you enter an item once.	Both
4	**Set up your rewards program** Customers earn points in the store and online and redeem them for discounts. Built with tools you already have — no monthly rewards-app fee. Details on page 4.	Amber builds Michele picks the rules
5	**Test the custom features before launch** I test everything built just for you: the homepage gallery, shop-the-look pages, forms, sizing, the Epos sync and the rewards, with real test purchases from a phone.	Amber tests Michele spot-checks

Great news I texted you yesterday: there's an app in your Epos back office you can download. It's a seamless, two-way sync between Shopify and Epos — no worries about which system you add a product to, it'll appear on both systems in parallel once you've entered it. Plus it handles customer details and order history too. That makes Step 3 way easier — we don't have to build that part from scratch.

Register, website, wholesale, rewards

Product sync (Step 3)

Enter a product once; it shows in Epos and on the website. Sizes, colors, brands and categories carry across. Customer details and order history sync too. We finish this before the launch date, then replace the sample products with your real ones.

Rewards (Step 4)

Shoppers earn points for every purchase, in store or online. Points turn into a discount on a later purchase. Balances show in their account on the website. We're building this on tools you already pay for — Epos, Shopify and Zapier — so there's no separate rewards-app subscription. The private connection between them is already installed on your store; the piece left is the points logic and your rules below.

Epos register sale — connection key → **Zapier · the messenger** — webhook → **Shopify · points saved here**

IF YOU BOUGHT A REWARDS APP INSTEAD	STARTING PRICE	NOTES
Smile.io	Free tier, then $15–$199/mo	Most popular, easiest to set up
Rivo	Free tier, then $49/mo	Good mid-tier option
LoyaltyLion	Free tier, then ~$159–$399/mo	Strong for VIP tiers
Yotpo Loyalty	Free tier, then ~$199+/mo	Bundles with reviews

Our custom route (Epos + Shopify + Zapier) has no line above it — it runs on subscriptions you already have. Full pricing detail is in the separate "Rewards Program Options" sheet.

Rules for you to choose (circle or write in)

1 **Points earned per $1 spent**

☐ 1 ☐ 2 ☐ other: _____

2 **Points needed for a reward**

☐ 100 ☐ 250 ☐ other: _____

3 **Reward value**

☐ $5 ☐ $10 ☐ other: _____

4 **Bonus for joining**

☐ Yes ☐ No ☐ amount: _____

5 **Birthday bonus**

☐ Yes ☐ No ☐ amount: _____

6 **Points expire?**

☐ Never ☐ 12 months ☐ other: _____

> The exact steps to switch on the Epos sync app and the Faire connection, and any fee Epos or Faire charges for them, are being verified and will be confirmed before we turn them on.

Checklist for this week

Confirm store info

THIS WEEK

Address — 264-A or 264 W Marion Ave? Your last name spelled how you want it on the site. Store hours (page 2).

Epos back-office access

THIS WEEK

Help installing the Shopify sync app and getting the connection key (API key + secret from your back office).

Faire account

THIS WEEK

Are you on Faire already? If so, the account details to connect.

Rewards rules

TODAY

Circle your picks on page 4.

Shipping, pickup, returns

CONFIRMED

Have this from your notes: pickup + shipping, 7-day returns with tag on the item + receipt (final sale/clearance excluded), cards + Shop Pay + pay-in-4 (no PayPal). Flag anything I've got wrong.

Photos

ONGOING

More phone photos (storefront, inside, you). Logo — got your original files, already swapped in.

Products

THIS WEEK

Your first real products, or approve syncing them from Epos once the app is connected.

Site review

THIS WEEK

Look through the site and mark edits. Which pieces go with each outfit for the "Shop the Look" pages.

About page — a few prompts if they help (you're writing this one)

1 How did the boutique start, and what made you open it?

2 What do you want every woman to feel when she walks in or shops your site?

3 What makes Be-YOU-tiful different, and what should we say about size XXS to 3X?

4 Anything about your faith, community or Punta Gorda you want included or left out?

A proposed schedule to October 15

WHEN	WHAT HAPPENS	STEPS
Sep 28 – Oct 4	Meeting today. You answer the About questions and start reviewing the site. I finish the Epos connection setup and the palette.	1, 2, 3
Oct 5 – Oct 10	I make your edits. Products sync from Epos; Faire connection set up. Rewards program built to your rules.	2, 3, 4

Oct 11 – Oct 13	Full testing on phone and computer with real test purchases. Sample products removed. Final walk-through together.	5
Oct 14 – Oct 15	Site goes live, domain connected, final payment, quick training on adding products and editing looks.	Launch

Dates are a proposal. The schedule depends on your answers, photos and Epos access arriving on time. Launching later is fine; launching sooner is possible if things come in early.

What's included, and what isn't

Included

Custom Shopify site and shop-the-look pages · Two rounds of design revisions · Store setup: pickup, shipping, payments, tax, policies, domain · 30 days of support after launch

Paid directly by you

Shopify subscription · Domain name (about $15–20/yr) · Product photography · Any Epos or Faire fees

Who to call: Amber · (239) 770-4924 · buildwith@launchwellbrands.com Text a photo of anything that looks off — fastest way.

Notes from today
