LAUNCHWELL BRANDS · PROPOSAL

Your Shopify Website

Prepared for Michele · Be-YOU-tiful Boutique by Michele

PREPARED BY
Amber Mingione · LaunchWell Brands · Punta Gorda, FL

DATE
September 2, 2026

GOOD THROUGH
September 16, 2026

Michele — you told me you love the Smith + Co. website and want that same clean, boutique feel for your own store. Here's exactly what I'll build, what it costs, and what I need from you. The design is already done and waiting for you in your portal, so once you say yes we go straight to your live store.

Complete Shopify website — design, build, launch
Flat price. No hourly surprises. Includes everything listed under "What you get."

$1,000
ONE-TIME

Payment: $500 to begin · $500 when your site goes live. Card, ACH, or check — an invoice arrives through your portal.

What you get

- A custom Shopify theme styled after your reference site — clean white, thin black frames, your peacock logo front and center
- Homepage: hero, What's New, six category tiles, "Every body. Every occasion." promise band, Sale row, Visit Our Store
- Shop pages for every category, product pages with sizes XS–3X, cart, and secure Shopify checkout
- About, Contact, Visit Us, Shipping & Returns, and Privacy pages
- Mobile-first — looks right on every phone (most of your shoppers)
- Your logo rebuilt as a crisp vector, plus favicon and social-share images
- Store setup: local pickup, shipping rates, payments (cards, Shop Pay), tax, policies, domain connected
- Email list signup in the footer, Facebook and Google Business Profile linked
- Your first 12 products loaded with you on a 30-minute screen share so you can add the rest yourself
- 30 days of post-launch support for fixes and "how do I…" questions

Not included (so there are no surprises)

- **Shopify subscription** — paid by you directly to Shopify (Basic plan, about $39/month; Shopify often runs a first-month trial)
- **Domain name** — about $15–20/year; I'll register your pick and connect it
- Product photography, or entering products beyond the first 12 (available as an add-on)
- Paid apps (reviews, loyalty, buy-now-pay-later beyond Shop Pay Installments) — recommended only when sales justify them

Timeline

WEEK 1	You approve the design and answer the 14 Website Decisions in your portal. You send your 10 phone photos.
WEEK 2	I create your Shopify store, load your categories and pages, connect your domain, and send you a private preview link.
WEEK 3	Screen share: we load your first 12 products together. You review the full site on your phone. Final tweaks.
LAUNCH	Target: **OCTOBER 15, 2026**, or sooner if your photos and decisions come in early.

What I need from you

- Design approval and the 14 decisions (about 20 minutes — both are in your portal)
- 10 phone photos following the shot list, and your original logo file if you have it
- Your Shopify account (I'll walk you through the 5-minute signup) and the $500 deposit
- Three to five sentences about you and the boutique for the About page

The fine print

Revisions. Two rounds of design revisions are included before launch. Changes after launch fall under the 30-day support period or a care plan.

Ownership. The site, theme, and all files are yours once the final payment clears. Your Shopify account is in your name from day one — I work as a collaborator, never the owner.

Content. You confirm you have the right to use the photos, logo, and text you provide.

Timing. The schedule depends on receiving your approvals, photos, and access on time; delays on either side move the launch date, not the price.

Cancellation. Cancel any time before launch; the deposit covers work completed to date and you keep the design files.

After launch. Optional LaunchWell Care Plan (updates, backups, monthly performance snapshot) available separately — no obligation.
