Your portal in 3 steps

For Michele & Aundrea — everything you need to do, on one page

Your homepage design is finished. I only need three things from you before I build the live store. Open your portal (the link is in your email from Assembly — or just ask me to resend it), and you'll see the three steps listed in **Requests**. Do them in any order.

1 STEP

Look at the design, then say yes or no

Tap `Step 1 of 3`. You'll see a picture of your homepage — desktop and phone. If you like it, tap `Approve`. If you want something changed, type it in the reply box. That's it.

About 3 minutes

2 STEP

Answer 14 quick questions

Tap `Step 2 of 3`. The questions are things like "Do you want a mailing list signup?" Each one already has my suggested answer — if you agree, you don't have to write anything. Reply with only the ones you'd change.

About 15 minutes

3 STEP

Send me 10 photos from your phone

Tap `Step 3 of 3`. There's a short list of what to shoot (the shop from the front door, the gowns rack, one photo per category, and one of you). Take them on your phone and upload them right there in the reply.

A morning in the shop, then 5 minutes to upload

Where are my files?

Tap **Files** in the left menu. Your homepage preview (desktop and phone), the logo pack, and your proposal are all there. Tap any file to view it or download it.

Stuck or unsure?

Tap **Messages** in the left menu and just type your question — no wrong way to do it. I answer within one business day. Or text me and I'll walk you through it on the phone.

> **Two of you, one portal.** Michele and Aundrea both have access — either of you can reply to any step. Easy split: Michele does Steps 1 and 2, Aundrea does the photos. — Amber, LaunchWell Brands
